

I have two horses cash and Travis, Cash is my out and about horse which I ride totally for pleasure. We have had a go at a number of things but mainly we like pleasure riding. I enter him in dressage competitions now and then but he sulks, even though he isn't so bad at it.

We have had a go at hunting which I know he enjoyed more than me. Travis is only three and is just starting his career, I would like to have a go at driving him as he is a steady eddy.

Cash's comments:

While out with my mum I enjoy a buck or two and running away from scary things, which my mum says is naughty, but what she doesn't know is I have saved her from near death from Dragons, wheelie bins, large boulders, people behind hedges, not forgetting them nasty England flags, and what a lot of good they did us.

I have had rather more days than I would like at Oakhill Veterinary Hotel, and if it wasn't for David, Matthew and Alistair I may not be here today, oh yes and Alison for stitching my head up when another horse glanced at my food. My mum says I am very handsome and everybody loves me, she also says Travis is a bit thick but too affectionate for his own good.

Update 3/4/2015

Travis has been out on loan for the past four years and has just returned.

Cash is out of work at the moment due to a Colic operation, this year I will be out and about on Travis. Lets see what that brings.
